The Smart Mount is simply affixed to your remote control by supplied super strong 3M tape. The other end can then be fixed to the wall or any other surface with the 3M tape or a screw if preferred ensuring the remote is not only secure, but also neatly displayed exactly where you want it.

The self locating magnetic coupling holds the remote firmly and smartly in place and enables your customers to have easy access to the remote. The flexible extra long security cord doesn't inhibit use with the air conditioner.
