

Step by Step Guide to Installing your Smart Remote

Step 1.

Turn on your Air Conditioner & Remote (use only quality AAA Batteries)

Step 2.

Open the Slider of the Remote

Step 3.

Open Insert Card & Read Instructions

Step 4.

Refer to the rear of the Insert Card to find the list of codes that match your brand of air conditioner
If your A/C brand is not listed go to Step 12

Step 5.

Unlock the Code Set Up function
Please read the manual that came with your Smart Remote
(for security reasons we cannot show that here)

Step 6.

Press & Release the Select (S) Key once

Step by Step Guide to Installing your Smart Remote

Step 7.

Enter the selected 4 digit Code
use the numbered buttons

Step 8.

Test the entered Code by pointing the remote at the A/C & press the blue power button on & off.
If it turns the A/C "on" check all other functions. If the A/C does not turn on or off or if any of the functions don't work correctly, this means it's not the correct Code - try another Code

Step 9.

To input another Code press & release the Select (S) Key again & repeat Step 7 & 8 process until all A/C functions work

Step 10.

Once the Code is proven to be correct
Press the "Enter OK" key once

Step 11.

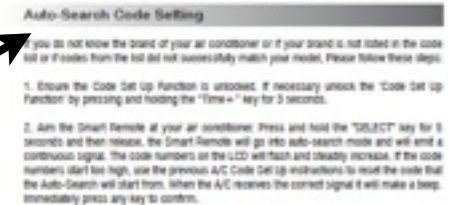

If your A/C brand is not listed follow Step 12

Step by Step Guide to Installing your Smart Remote

Step 12.

Carefully read the 'Auto Search Code Setting' section

Step 13.

Ensure the Code Set Up function is unlocked. See Step 5

Step 14.

Aim the Smart Remote at your A/C & press "Select" key for about 5 seconds this will turn on 'Auto Search' function

Step 15.

The Remote will emit a continuous signal to the A/C & the Code numbers on the LCD will flash & increase steadily
Keep the remote pointing at the A/C at all times

Step 16.

When the A/C receives a signal it recognises, the A/C will beep.
IMMEDIATELY PUSH ANY KEY
To stop the search on the Code that made the A/C beep.

Step by Step Guide to Installing your Smart Remote

Step 17.

Then test this Code by pointing the remote at the A/C & pressing the blue power button on & off. If it turns the A/C on & off check all functions. If the A/C does not turn on or off or if any of the functions don't work correctly, this means it's not the correct code

Step 18.

Turn the 'Auto Search' back on
*Step 14
From Step 14 follow instructions through till Step 17 again. Until all functions are working correctly

Step 19.

Once the Code is proven to be correct & working
Press the "Enter OK" key once to lock it in

Step 20.

This process can be repeated as many times as required until the correct Code is found & all functions are working correctly

Step by Step Guide to Installing your Smart Remote

Please Note:

At any time
(especially when changing batteries).
If the remote does
not wake up or the screen is blank.
Reboot the remote by taking the
existing or new batteries out &
then put them back in one more time

OR

Push the Reset Button
by using a fine tip pen or other
sharp object

Reset **will not** effect your
memory setup
